

FITNESS TRAINING SHORT DURATION TIMER

FTST670

Timer Control:
Changes start value.

Start:
Start / Pause / Resume.

Stop:
Pause / Reset.

Mode:
Menu Access.

Portable AC Power inverter with auto adapter included.
Display can be plugged into standard 240v AC also.

Designed for fitness training exercises, sporting events, or anywhere an outdoor timer is required. These displays come with ultra bright LED's to overcome direct sunlight, a heavy duty tripod adjustable from 1.1m to 1.8m tall, an easily stored wired remote control with 7.6m of cable, moisture resistant barrier, a portable inverter with auto adapter, and a 3.6m standard 240v AC grounded cord and plug for a standard outlet. When not in use simply disassemble and store in a convenient location.

Sporting the same capabilities as the ST series of timers, these displays are excellent choices for timing laps, repetitions, races, or scrimmages. Stand alone operation only, please contact our sales representative if a synchronized timing system is required.

Model	Up or Down Timer Display Formats	LED Color	Digits	Digit Height	Viewing Distance	Dimensions mm
